Press Release

KRS Infra Ventures Pvt. Limited to Drive Indian Domestic Shipbuilding Growth with Strategic Global Partnerships

New Delhi, October 10th, 2025 – KRS Infra Ventures Pvt. Limited, a leading Infra Marketing Company, has announced its strategic initiative to strengthen India’s domestic shipbuilding ecosystem through global collaborations and technology partnerships.

As India continues to expand its maritime trade, logistics, and coastal infrastructure, the demand for modern, efficient, and sustainable shipbuilding capacity is at an all-time high. KRS Infra Ventures aims to bridge this gap by fostering joint ventures and technical collaborations with internationally renowned shipbuilders, technology providers, and shipboard ancillaries’ equipment suppliers & manufacturers.

Speaking on the initiative, Keshav Gandhi, Managing Director of KRS Infra Ventures, said: *“India has immense potential to become a global hub for shipbuilding and repair, in line with the government’s ‘Make in India’ and ‘Atmanirbhar Bharat’ vision. Through strategic tie-ups with leading global players, we are committed to bringing advanced technology, design expertise, and best practices to India while strengthening local manufacturing, creating employment, and boosting exports.”*

The company’s initiative will focus on:

- Establishing **state-of-the-art shipbuilding facilities** in India with global partners.
- Promoting **indigenous manufacturing** and reducing dependency on imports.
- Enhancing **skill development and employment opportunities** for Indian engineers and workforce.
- Supporting India’s **blue economy** growth and maritime infrastructure modernization.
- Exploring opportunities in **green shipbuilding** and sustainable technologies.

This move is expected to contribute significantly to India’s domestic shipbuilding growth, align with national economic goals, and position the country as a strong competitor in the global maritime sector.
